Shakeeb Khan

Flutter Developer

Lahore, Pakistan   shakeebkhancutie@gmail.com   03147896819

Profile

I am a skilled Flutter Developer with 2.5 years of experience in building dynamic and responsive mobile applications. My expertise spans API development, Firebase, SQFlite, Hive, and state management with Provider, GetX, and Riverpod. I also have basic knowledge of Node.js for backend API development, and have basic level of experience in Figma for designing UI/UX of mobiles and experience working with WAMP protocols in real-time applications. Strong problem-solving skills, attention to detail, and a collaborative mindset define my approach to delivering efficient solutions.

Employment History

Apr 2022 — Dec 2024

Multan

Flutter Mobile App Developer at Codebase

- **Wick UI Project**: Designed a protocol-driven system with four key protocols (Publish, Subscribe, Register, Call) to mimic HTTP-like operations (Post, Get, Update, Delete).
- **Wosh Car App**: Created two separate apps for client use and service provider management in the car wash service industry, enabling bookings and streamlined service handling.
- **Turo-Like Car Rental App**: Currently building a rental platform for users to find and rent vehicles, inspired by Turo's model.
- **Emall App (Similar to Daraz)**: Working on a large-scale e-commerce platform, focusing on seamless shopping experiences and efficient seller-buyer interactions.
- **News App**: Built a robust application to deliver dynamic news content with a smooth user interface.
- **Crockery Sale App**: Created an e-commerce platform specifically for crockery sales.
- **Salon App**: Developed a salon management system, offering appointment scheduling and service management features.
- **Service Provider App**: Enabled connection and communication between service providers and clients with integrated booking functionalities.

Technical Expertise:

- Backend integration with **Firebase**, **custom APIs**, **sqflite**, and **Hive databases**.
- Experience with **push notifications**, **cloud functions-**, **REST APIs (Postman)**, **background services**, and **notification/alarm systems**.
- Skilled in **state management techniques** using **Provider, Riverpod,** and **GetX** for maintaining app states efficiently.

Education

COMSATS UNIVERSITY

BS Software Engineering

I am Shakeeb Ahmed Khan, a software engineering graduate from COMSATS University Islamabad with a CGPA of 3.22. I have a strong foundation in mobile app development, and I completed my final year project in Flutter, where I developed a fully functional mobile application. With a passion for creating seamless and user-friendly digital experiences, I am dedicated to delivering high-quality solutions.

Jan 2015 — Jan 2017

Multan

EMERSON COLLEGE MULTAN

FSC Pre-Engineering

I completed my FSc in Pre-Engineering from Emerson College Multan, building a strong foundation in mathematics, physics, and analytical skills. This background has equipped me with a solid understanding of engineering principles, preparing me well for advanced studies and technical challenges.

Internships

Apr 2022 — Jul 2022

Multan

Flutter Developer at Codebase

I began my career as an intern at Codebase Software House in Multan, where I completed an internship focused on Flutter development. This experience allowed me to build a strong foundation in mobile app development and gain hands-on experience with Flutter. After completing my internship, I transitioned into a full-time role as a Flutter Developer, where I continue to enhance my skills and contribute to creating dynamic, user-friendly applications.
